Director General Traversy,

The Peach City Community Radio Society is excited to submit this license application for a low power community radio station for Penticton, British Columbia. This application expresses our commitment to the residents of Penticton; it represents what we have built over the past four years, and exemplifies that we aim to broadcast the best programming volunteer community radio can offer.

We invite the Commissioners and any staff of the CRTC to visit our website **[www.peachcityradio.org](http://www.peachcityradio.org)**. We currently host a 24 hour a day web stream compliant with the revised Campus and Community Radio Policy. This stream is fully run by volunteers. Archived content, created by local residents, can also be found on the website within our on-demand listening section.

This application has been a four year process involving dozens of amazing community volunteers. We would like to recognize their hard work and perseverance, as well as the guidance and support we have received from the NCRA.

Sincerely yours,

David Del Rizzo  
President - Peach City Community Radio Society
